

SPS Access Class Community & Classroom Connection

Thanks to a Springfield Public Schools Foundation grant, up to 40 Springfield Public School teachers and staff members will be awarded an opportunity to participate in the Leadership Springfield SPS Access Class. This unique learning opportunity enhances community awareness, builds meaningful connections with other SPS teachers and community networks, and provides information for future opportunities available to SPS students after graduation.

In this fun, fast-paced, two-day experience, teachers and staff will gain a more comprehensive view of our community and an actionable connection between the experience and the classroom. Following the SPS Access Class, teachers will present an overview of their experience to their building peers during a staff meeting or other professional learning opportunity to transfer the information and expand the depth of community context and resource awareness across the district.
